## SUMMARY

Computer Science Engineering student with a Minor in Cybersecurity and hands-on experience in software development and database management. Skilled in Java, Python, C++, C, OOP, SQL, REST APIs, and SDLC, with practical experience in developing, testing, debugging, and maintaining software applications. Strong problem-solving and programming skills.

## ACADEMIC CREDENTIALS

Jawaharlal Nehru Engineering College, Ch. Sambhaji Nagar, MGM University — July 2023 - July 2027

*Bachelors of Technology in Computer Science & Engineering; Minors in Cybersecurity* — CGPA: 8.89/10

## WORK EXPERIENCE

**Engineering Intern** ***Link***

*Crafizio Private Limited, Hyderabad, Telangana*

*August 2026 – Ongoing*

- Engineered responsive frontend components using React.js and Tailwind CSS, achieving **40% reduction in user errors** through a focus on usability and accessibility.
- Designed and optimized user flows and UI/UX for web applications in Figma, collaborating with product teams to drive a **60% increase in user engagement**.
- Supporting technical documentation & QA testing activities, including UI validation, issue identification, bug reporting.

**UI/UX & Frontend Intern** ***Link***

*First-Buy Rewards, Aurangabad, Maharashtra*

*July 2025 – January 2026 (7 months)*

- Developed **5+ responsive interfaces** using React.js and Tailwind CSS across customer-facing features.
- Created 7+ UI elements and design assets using Figma and Canva to support a consistent user experience.

**Virtual Intern – Google Cloud Generative AI** ***Link***

*Google Skill Boast, Smartbridge*

*September 2025 – October 2025 (2 months)*

- Completed guided modules on Google Cloud and Generative AI fundamentals.
- Worked on hands-on **AI labs** and **cloud workflows**.
- Explored practical Generative AI applications.

## PROJECTS

**AI-Powered KYC Verification System** ***Github***

**Tech Stack /Skills:** Python, OCR, OpenCV, Face Recognition, Deep Learning, Risk Analysis

- Enabled automated image recognition with prediction accuracy exceeding 90% during testing.
- Achieved **95%+ face matching** accuracy using OCR and face recognition.

**Deep Learning Image Classifier** ***Github***

**Tech Stack /Skills:** Python, TensorFlow, Keras, Deep Learning, React.js, JavaScript, Flask/FastAPI, Image Classification.

- Orchestrated an AI-powered image classification system using TensorFlow/Keras, enabling real-time predictions.
- Confidence scoring, & automated image recognition across multiple classes.

**Inventory Management System** ***Github***

**Tech Stack /Skills :** Java, JavaFX, MySQL, JDBC, CSS, Maven

- Developed a JavaFX-based inventory management system with **5+ core modules for inventory**, billing, and purchase management. Managed 1000+ inventory records and billing

**TravelBuddy – Travel Booking Platform** ***Github***

**Tech Stack /Skills:**React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS

- Implemented **JWT authentication** and responsive booking workflows, improving user accessibility across desktop and mobile devices.

## SKILLS

**Programming:** Java, Python, C, C++, Object-Oriented Programming (OOP), Data Structures & Algorithms.

**Software Development:** SDLC, REST APIs, Backend Development, Application Development, Software Testing, Debugging.

**Databases:** MySQL, MongoDB, SQL, Database Management.

**Tools & Technologies:** Git, GitHub, Linux, Docker, Postman.

## ACHIEVEMENTS & ACTIVITIES

- Secured **6th place** in the **Google Developer Student Club** Cloud Shell Challenge.
- Participated in hackathons, coding events, and project-based technical competitions.
